Wheelchair lift Roll On Compact

for internal and external use

Roll On Compact for home-, as well

The Roll On Compact is our new generation of stairlifts, meant for all types of transportation of people, in a wheelchair or using a walker. It is as well suited for a person sitting in a wheelchair as a person standing, due to the sturdy handrail which the lift is equipped with.

The non-slip floor and sensitive edges provide added safety. The platform and safety barriers fold and unfold automatically. The lift provides you with excellent safety with a safety gear and surrounding barriers.

The Roll On Compact is also suitable for other types of transport e.g. pushchairs, cleaning equipment and the transportation of goods.

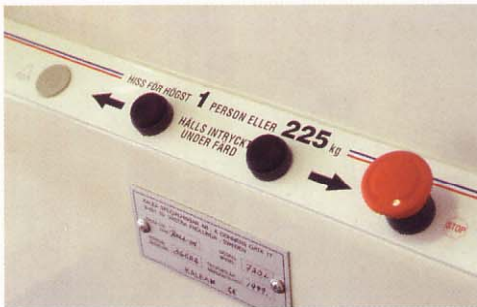

When the Roll On Compact is not in use, the platform is folded up against the wall providing free passage. This is an excellent solution, especially in narrow stairways.

The lift, in its folded position only takes up 237 mm of space from the wall.

as public- and outdoor environment.

The Roll On Compact is easily and safely installed because of its well-planned mounting system on pillars or directly on a wall. Comfortable maintenance with few and easily accessed parts and an easy-to-service construction.

Comfortable and easily assessable push buttons suited for users with reduced strength.

Options:

- Accessible from an angle
- Folded seat
- Single phase drive with soft-start and stop

Advantages of the Roll On Compact:

- ◀ Reusable for mounting on both the left hand side and right hand side of the stairway
- ◀ Modern design
- ◀ No visible motor or electric parts
- ◀ Only takes 237 mm of space from the wall in its folded position
- ◀ Can be folded manually in case of power failure
- ◀ Easy to move if re-used
- ◀ Excellent safety – the lift complies to all standard safety requirements and is also type approved by SAQ
- ◀ In- as well as outdoor models
- ◀ For stairways with 15° - 45° gradient
